Member News - Pen Express Worldwide (Malaysia)

We are pleased to share that we have recently launched our **second warehouse**, which also serves as our **Primary Logistics Hub**.

This new 200,000 sq. ft. facility offers both racking and floor space storage. It features approximately 11,000 pallet positions within a temperature-controlled environment, alongside 80,000 sq. ft. of non-air-conditioned floor space. We are currently utilizing this facility to store medical equipment and electronic goods.

The warehouse operates 24 hours a day, 365 days a year, specifically designed to support Just-In-Time (JIT) warehousing and Milk Run logistics. Currently, we manage an average daily inbound and outbound volume of 30 to 40 40-foot air-conditioned trucks, which is equivalent to approximately 500 to 600 pallets. We also utilize our own temperature-controlled trucks to transport shipments from the warehouse to our customers' factories. The facility is currently operating at half capacity, with the ability to scale up by an additional 30-40%.

GLF Projects - Coming Soon

GLF Projects – Coming Soon

We're excited to announce the upcoming launch of a brand-new division: GLF Projects.

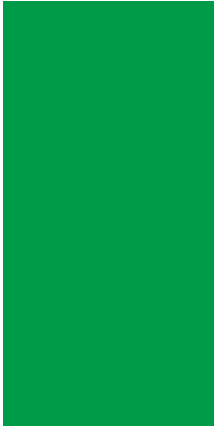

This dedicated platform will focus on expanding into a specialist niche sector, where we will be actively seeking new agents to join and grow with us.

Please note, your existing GLF membership will remain completely unaffected, as GLF Projects will operate as a separate division with its own website and opportunities.

We look forward to sharing more details with you very soon – stay tuned for further updates.
